

Processing Applications to Drill Non-Exempt Wells

Check List

Deliver completed Application (requires notarization of signature) to Uvalde County UWCD office, along with your deposit of \$100 (refundable contingent on delivery of driller's well log to District office) and non-refundable registration/administrative fee of \$50.

When the Application is deemed administratively complete by the District office, you will be given a public notice form to complete and a Publisher's Affidavit to deliver to the Uvalde Leader-News office.

If, within the requisite 14-day period following the publication of the public notice, the District receives no protests to your application, you will be issued a Non-Exempt Well Construction Authorization by the District approving the drilling of the well.

Upon the delivery of the driller's Well Report to the District office, your deposit will be refunded to you.

You will be given a Groundwater Withdrawal Permit application to complete and submit to the District for its consideration.

9. If proposed well is for irrigation use:

Number of contiguous acres to be served by well: _____ acres

Type of System: Pivot Flood Drip Other: _____

Provide a map showing location of acreage to be irrigated

Are there other wells in use with this well for the same reason? Yes No

If yes, list Permit number for each such well:

10. Anticipated time within which proposed construction or alteration is to begin: _____

11. Well Data:

Anticipated rate of production: _____ gallons per minute

Aquifer: Austin Chalk Leona Gravel Buda Limestone Trinity Glen Rose
 Alluvium Other: _____

Owner's well number _____ (if replacement, give UCUWCD registration number of well to be replaced)

Driller: _____ License number: _____

Phone: _____ Address: _____

Land surface elevation above mean sea level: _____ feet

12. Is proposed new well site a minimum distance from the following:

	Yes	No
50 feet from any water-tight sewage facility?	<input type="checkbox"/>	<input type="checkbox"/>
100 feet from closest existing well?	<input type="checkbox"/>	<input type="checkbox"/>
50 feet from any water-tight septic system?	<input type="checkbox"/>	<input type="checkbox"/>
150 feet from any concentrated source of potential well contamination (e.g. privy, livestock yards, underground storage tank, septic system absorption field?)	<input type="checkbox"/>	<input type="checkbox"/>
500 feet from any sewage treatment facility, sewer farm, or solid waste disposal site?	<input type="checkbox"/>	<input type="checkbox"/>
Required distance from nearest producing well?	<input type="checkbox"/>	<input type="checkbox"/>

13. Anticipated well / pump information:

Borehole Diameter _____

Total Depth _____

Depth of Casing _____

Inside Diameter of Casing _____

Depth of Pump Setting _____

Pump Size: Horsepower _____

Production Capacity: _____

Power Source: Electric Diesel Other: _____

Meter Number _____

14. Location:

County of well _____

Attach a map or plat showing :

The location of the well

The location of the existing or proposed production monitoring or meter device(s)

The location of the existing or proposed water use facilities

The location of the proposed or increased use or uses

The location of any other water sources currently in use

Fill in GPS coordinate for well location:

Latitude _____ ° _____ ' _____ " N

Longitude _____ ° _____ ' _____ " W

Approximate number of feet from well location to the two nearest non-parallel property lines:

15. Depth of the water-bearing foundation from which applicant proposes to produce groundwater: _____
16. Anticipated quantity of groundwater to be produced annually from the well: _____
17. Presently anticipated duration required for the proposed use of the groundwater: _____
18. Provide documentation or information sufficient to demonstrate compliance with the District's well spacing rules and production limit requirements.
19. Applicant agrees to provide the District with a complete well registration on forms furnished by the Texas Dept of Licensing and Regulation, and any mechanical log that may have been made, within 60 days of the completion of the well.

PART B

WELL WITHDRAWAL PERMIT APPLICATION

1. Attach information showing the anticipated effect of the proposed production on the quantity and quality of water available for future use both inside and outside the District
2. Identify any other presently owned sources of water, the availability of which is both technically and economically reasonable for applicant, that could be reasonably substituted for fresh groundwater. Identify both the possible sources of such water and the quality and quantity available.
3. Identify any other liquids, the availability of which is both technically and economically reasonable for applicant, that could be reasonably substituted for fresh groundwater. Identify both the possible sources of such liquids and the quality and quantity available.
4. Attach a water conservation plan developed or adopted by applicant; any established water conservation goals; and identify what measures and time frames are necessary to achieve applicant's established water conservation goals.

5. *If applicant proposes to use the water for irrigation:*

(a) Total number of contiguous acres the applicant owns where the well is to be located:

(b) Size of the field to be irrigated: _____

(c) Location of the field to be irrigated (using GPS coordinates):

Latitude _____ ° _____ ' _____ " N
Longitude _____ ° _____ ' _____ " W

(d) Attach a map showing the location of the field to be irrigated by the well.

6. *If applicant proposes to use the water for agricultural use, other than irrigation:*

(a) Total number of contiguous acres the applicant owns where the well is to be located:

(b) Proposed use of water: _____

(c) Location of proposed use of water (using GPS coordinates):

Latitude _____ ° _____ ' _____ " N
Longitude _____ ° _____ ' _____ " W

(d) State the reason(s) why the amount of water applied for is economically reasonable, when reasonable intelligence and reasonable diligence are used to apply the groundwater to that purpose:

7. *If applicant proposes to use the water for commercial or industrial use:*

(a) Proposed use of water: _____

(b) Location of proposed use of water (using GPS coordinates):

Latitude _____ ° _____ ' _____ " N
Longitude _____ ° _____ ' _____ " W

(c) State the reason(s) why the amount of water applied for is economically reasonable, when reasonable intelligence and reasonable diligence are used to apply the groundwater to that purpose:

8. *If applicant is a public utility and the groundwater is to be distributed and sold to wholesale or retail customers:*
- (a) Description of the applicant's service area: _____
 - (b) Applicant's metering and leak detection repair program: _____
 - (c) Applicant's water storage, delivery and distribution system: _____
 - (d) Applicant's drought or emergency water management plan: _____
 - (e) A description of the population to be served, customer data, water use data, water supply system data, wastewater data, water conservation measures and goals, and applicant's means for implementation and enforcement of those conservation measures and goals.
 - (f) *If applicant proposes to transport the water outside of the District's boundaries:* Provide information sufficient to demonstrate compliance with Section 9 of the District's Rules.

Note:

If the applicant is an individual, then the application must be signed by the applicant or his/her duly appointed agent.

If the applicant is a partnership, the applicant is the name of the firm followed by the words "a Partnership", and the application must be signed by one of the general partners authorized to bind all partners. The application must identify all general partners.

If the applicant is a corporation, public district, county or municipal corporation, unincorporated area, or governmental or proprietary body, the application must be signed by a duly authorized official.

If the applicant is an estate or guardianship, the application must be signed by a duly appointed guardian or representative of the estate.

I, the undersigned Applicant, hereby certify that the information herein is true and correct to the best of my knowledge and belief.
